

COGNIA ACCREDITATION VISIT

MARCH 3-6, 2025

Accredited since 2009, we continue our improvement process and are ready for our 4th Accreditation.

Empowered by STEM.org, we continue our journey with Cognia STEM Certification!

Dear LIA Community,

On behalf of the School's Leadership Team, we want to first thank God and also want to extend our deepest gratitude to each one of you for your invaluable contributions during our recent visit. We are thrilled to announce that our school has **SUCCESSFULLY completed the Cognia Accreditation and STEM Certification visit** from March 3 to March 6, 2025. The Cognia Engagement Review Team highly commended our school for its outstanding work and organization throughout the process.

The review included two simultaneous processes: our 4th Accreditation with Cognia, which evaluates 30 standards across the school, and the Cognia STEM Certification, which assesses an additional 10 STEM-focused standards. We will receive the official report from the Cognia Latin America Committee in about 30 days and when we receive it, we will celebrate this important milestone together!

Thank you to our entire school community—students, teachers, principals, directors, staff, and parents—for your dedication and support in making this achievement possible. Thank you for your participation in the focus group meetings, classroom visits and in sharing our valuable evidence to make this significant impact on the success of this endeavor.

We deeply appreciate your enthusiasm shown throughout this process, it is through the collaboration that our school shares with parents and all of its educational community that we were able to demonstrate the outstanding progress we've made both in Academic Excellence and STEM education.

Thank you for your ongoing support and for being an integral part of this accomplishment. Together, we continue to create a positive and innovative future for our students and the entire school community.

Blessings,
LIA Leadership Team
